Associated fields : Derivative academic fields of study may both interact with and develop independently of filmmaking, as in film theory and analysis. Fields of academic study have been created that are derivative or dependent on the existence of film, such as film criticism, film history, divisions of film propaganda in authoritarian governments, or psychological on subliminal effects e.g., of a flashing soda can during a screening. These fields may further create derivative fields, such as a movie review section in a newspaper or a television guide. Sub-industries can spin off from film, such as popcorn makers, and film-related toys e.g., Star Wars figures. Sub-industries of pre-existing industries may deal specifically with film, such as product placement and other advertising within films.

The lack of theatrical releases from Hollywood studios resulted in an anime film—Demon Slayer: Mugen Train—becoming the first-ever non-Hollywood film to top the annual worldwide box office. The film benefited from Japans relative control of the pandemic at the time of its release, the popularity of the franchise, and reduced competition from international films.120121 With both Los Angeles and New York City having allowed cinemas to reopen by March 2021, it was expected that film distributors would be more confident in releasing higher-profile films.122123 During that month, Disney announced that Black Widow would open in theaters on July 9, 2021 and would also be available on Disney+ the same day with Premier Access, following the same release strategy that was used for one of the companys other films, Raya and the Last Dragon.124 Two more of Disneys films, Cruella and Jungle Cruise, were also given this hybrid release.124125

By March 12, Cinemark, AMC and National CineMedia stocks had all fallen by over 35%

since the beginning of the month.181 Cineworld, the worlds second-largest cinema chain, warned on March 12, when multiple films pushed back their releases, that extended disruption and continuing falling stock could cause the company to collapse.180182 In August 2020, California announced a new color-coded tier system that would allow restrictions to be lifted in specific counties based on health metrics, effective August 31.183184 Cinemas would be allowed to operate at limited capacity if a county is in the red Substantial tier or better. This would scale from at 25%100 patrons whichever is smaller in red counties, to 50%200 patrons in orange Moderate counties, and 50% with no hard maximum in counties under the lowest yellow Minimal tier. The majority of the state was still in the purple Widespread tier at the onset of the system, where cinemas remained closed. These health orders can still be superseded with stricter rules by local officials.185
